

RC35 / RC52

Designed for use on copper and aluminium cables and conductors. High quality steel ratchet mechanism for optimised mechanical advantage. Moveable blades can be easily released.

CAT NO	RC35	RC52
CUTTING RANGE	35mm dia	52mm dia
LENGTH	255mm	340mm
WEIGHT	0.9kg	1.2kg

RC64 / RC80

Designed for use on copper and aluminium cables and conductors. Cuts larger cables with remarkably low effort. Optimised cutting geometry reduces force required.

CAT NO	RC64	RC80
CUTTING RANGE	64mm dia	80mm dia
LENGTH	450mm	610mm
WEIGHT	1.7kg	3.0kg

RCF1 / RCF2

Open head design allows better access to cable in confined areas. For use on copper and aluminium conductors. 2 sizes available.

CAT NO	RCF1	RCF2
CUTTING RANGE	25mm dia	34mm dia
LENGTH	245mm	330mm
WEIGHT	0.9kg	1.3kg

Tape Cutter

The only cutter designed to cut tape used in earthing and lightning protection. Cuts Cu and Al tape including hard drawn up to 50 x 6mm. Adjustable guide and clamp to hold the tape to ensure a square cut. Safety locking handles, quick release blade.

CAT NO	CTC
CUTTING RANGE	50 x 6mm
LENGTH	290mm
WEIGHT	1.7kg

ACSR Ratchet Cutter

Lightweight, compact ratchet cutter for use on ACSR conductor up to 50mm². Release lever allows jaws to be opened at any time during cut. Plastic dipped handles for comfort and non-slip grip.

CAT NO	11-014
CUTTING RANGE & MAX HEAD OPENING	34mm - 50mm ² ACSR
LENGTH	250mm
WEIGHT	0.6kg

Baudat K32

Ratchet cable cutter for single handed cut. Open jaws for faster operation and greater access to restricted spaces. Blades releasable at any point during operation.

CAT NO	K32
CUTTING RANGE	Cu & Al cables to 32mm dia Copper cable to 250mm ² Aluminium cables to 320mm ²
LENGTH	306mm
WEIGHT	0.9kg
