

## Large Metal Lifting Gin

For lifting transformers and heavy objects. Stamped with load rating. High strength aluminium alloy and high strength steel chain or webbing strap.

CAT NO	FITS OVER X-ARM	LENGTH	WEIGHT
5742-24	120 x 150mm	280mm	11kg

## Light Duty Insulated Gin

For lifting small transformers and equipment. Stamped with load rating. Fibreglass shaft manufactured to ASTM F-711. Quick attachment to pole via webbing strap ratchet.

CAT NO	DIMENSIONS	WEIGHT
5800-1	615 x 255mm	4kg

## Heavy Duty Insulated Lifting Gin

For lifting transformers and heavy objects. Stamped with load rating. Fibreglass shafts manufactured to ASTM F-711. Quick attachment to pole via webbing strap ratchet.

CAT NO	DIMENSIONS	WEIGHT
5800-3	915 x 457mm	11kg

## Cross Arm Lifter

This lightweight aluminium crossarm lifter is ideal for raising even the largest cross arms to ESI 4340 to the top of any pole. The lifter, which has a safe weight lift of 100kg, rests on the pole top and is strapped in position with a ratcheting strap binder. The sheave is securely caged to prevent the lifting rope escaping while in action.

CAT NO	WLL	WEIGHT
D-929-01	100kg	13kg
