

The Utility Tripod Sign System is a flexible safety solution for temporary work areas.

The compact folding tripod can be easily erected or collapsed to accommodate a variety of signs, and the advanced design ensures the minimum pavement or road space is used.

- ✓ Extremely compact tripod – folds down to only 87cm in length
- ✓ One tripod suits a wide range of sign shapes and sizes – thus alleviating stockholding commitment
- ✓ Takes up less road or pavement space than traditional roll-up signs
- ✓ Two-piece unit
- ✓ Very easy to erect
- ✓ Sign faces available with standard or superior grade reflectivity, or non-reflective
- ✓ Can be printed with any road sign design from UK or overseas specification
- ✓ Rust-proof metalwork
- ✓ Suitable for use in temperature range between -5° to $+30^{\circ}$. Lower and higher temperature resistant product is also available on request
