

## Pole Socks

Used for the safe transportation of wood poles, Pole Socks provide high visibility where the pole is overhanging the vehicle during transport. Fitted with elasticated cords and adjustable webbing strap ensuring a tight fit on poles from 8" (203mm) to 14" (357mm) diameter. Length 4' (1.22m).

CAT NO	DESCRIPTION	LENGTH
VSP-14-3S-ST	Pole Socks	4' (1.22m)

## FoxFire Emergency Light

Ideal for vehicles parked on or near roads, the 26 super bright LEDs coupled with LED magnifiers provide high powered emergency lighting. Battery powered with magnetic strip for attaching to vehicles or other metal surfaces. Dual function flashing and steady signal beam. Suction mount available which allows light to stand up.

CAT NO	DESCRIPTION
F26A	FoxFire Amber LED Emergency Light
F26-SM	Suction Mount for FoxFire

## Barricade System

A high visibility barricade system for use around utility vehicles, safe zones or hazardous areas. Lightweight sliding barricade bar telescopes out from 51" to 85" giving great flexibility in cordoning off areas of any size. Yellow cones are 36" high with weighted base – barricades can be used with other cones. Danger sign can be hung over barricade bar.

CAT NO	DESCRIPTION	WEIGHT
6850	Sliding Barricade Bar (51" - 85")	0.6kg
6840	High Vis Yellow Cone (36" high)	5.7kg
