

Battery Punch Driver

This sheet metal hole punching tool can be used with all standard and special shaped punches from Greenlee. Compact but powerful, the tool can quickly punch through both mild steel and stainless steel sheets at the touch of a button. Its fully revolving head allows holes to be punched in confined areas up to 144mm round (mild steel) and 64mm round (stainless steel).

The integrated control automatically stops the punch when the hole is complete, increasing the lifetime of the punches and prolonging battery life. Square, rectangular and special shaped holes are all possible; please contact us for more information on available punches, dies and draw studs.

CAT NO

LS 50-L FLEX

CAPACITY

64mm round (3.5mm stainless steel)
144mm round (3.0mm mild steel)
138 x 138mm square (2.5mm mild steel)

PUNCHING FORCE

60kN

BATTERY VOLTAGE

18V Li-Ion

BATTERY CAPACITY

3Ah (RAL2/BL1830) or 1.5Ah (RAL1/BL1815)

CHARGING TIME

22 min (RAL2/BL1830) or 15 min (RAL1/BL1815)

PUNCHING TIME

5 seconds at 22.5mm dia, 3mm mild steel
6 seconds at 63.5mm dia, 3mm mild steel

WEIGHT

2.12kg
