RED-DISC Red Identification Tag

WRIST-BAND Black Leather Wrist Band

ACH06 Spring Loaded Steel Clip

Identification Tags

Issued to keep a record of workers entering and leaving site, particularly when work is in proximity to live conductors. Red tags can be worn as a wristlet with a leather watch type strap or with a spring loaded steel clip for attaching to work wear.

Magnetic Hook

Manufactured from a rugged polymer with a strong ceramic magnet, the magnetic hook can be used for a plethora of applications including hanging rubber blankets over electrical hazards, marking dangerous areas with a flag or sign and for positioning lighting products.

Equipment can be suspended from the hook or placed in the barrel holder which has a nylon security screw. 2 models available rated at 40kg and 90kg pull.

CAT NO	DESCRIPTION
819055	Magnetic Hook 40kg pull
819057	Magnetic Hook 80kg pull

Anemometer

Ideal pocket instrument for balanced instant wind speed measurement. Features 3 operating modes - instant, maximum and average. The unit is waterproof and has a backlit display. Supplied with lithium battery.

CAT NO	RANGE	RESOLUTION	PRECISION	MEASURING CYCLE
SWF-1	Max 94mph (150km/h)	0.1 unit	±3%	Twice per second

Break Away Belt Hook

Designed for safely attaching sash line to tool belt or harness. The hook will straighten out and release the sash line should it snag or be suddenly tugged, ensuring increased safety for linesman.

CAT NO	DESCRIPTION
3542	Break Away Belt Hook
