

Plant Nappy®

The Plant Nappy® is a light and user friendly method of spill containment, designed to replace existing traditional drip trays. For use in all weather conditions, it is rugged enough to stand plant on it all year round to contain drips and spills on site. Plant Nappy® encapsulates any drips or spills of oil whilst the mat freely allows passage of water, such as rainfall, eliminating costly emptying of contaminated trays after use. The mat can be stood on uneven ground or slight inclines with no loss of performance ensuring your company is protected at all times. The Plant Nappy® is an easy and cost-effective way to ensure environmentally friendly practice on site, avoiding possible prosecution or monetary fine for contamination of ground and water. Replacement liners available.

CAT NO	DIMENSIONS
PN-200X137	200cm x 137cm
PN-100X68	100cm x 68cm
PN-68X50	68cm x 50cm

Spill Kits

Spill kits are available in 3 main types - Oil, Chemical and Maintenance. Sorbents used in Oil Spill Kits are oleophilic and hydrophobic (absorbs oil, rejects water). Sorbents used in Chemical and Maintenance Spill Kits are hydrophilic (absorb water) which allows the recovery of aqueous based liquids.

Tested to BS7959-1:2004 for absorbency capacity. High absorbency capacity results in less product being used and less time and labour required to clean spills. Colour coded as per the BS7959-3:2000 guideline - blue for oil, yellow for chemical and grey for maintenance. Aids easy identification of the type of hazard you are dealing with.

Kit 1 Workplace Spill Kit

Available as an Oil, Chemical or Maintenance Spill Kit.

Oil absorbency: 79 litres, Chemical/Maintenance absorbency: 48 litres

Robust UV stabilised waterproof PVC bag with waterproof double zip. For use inside or outside the workplace. Hang on wall with extinguishers, first aid kits etc for a complete emergency station. Carry in cars for first response or place outside in high risk areas such as storage and transfer.

Kit contains 50 pads (40 x 52cm), 4 socks (125 x 7.5cm), 2 cushions (42 x 37 x 10cm), flow stopper slab, disposal bag, tie, gloves & goggles.

Kit 2 Vehicle Spill Kit

Available as Oil, Chemical or Maintenance Spill Kit, packaged in a polythene unit.

Oil absorbency: 46 litres. Chemical/Maintenance absorbency 29 litres.

For dealing with spills of carried goods or of vehicle's own fluids. 3mm high density polythene in grey with nylon coated handle and stainless steel fastener. Extended sides for ease of mounting on outside of vehicle, on trailer or rear end of cab.

Kit contains 25 pads (40 x 52cm), 4 socks (125 x 7.5cm), 1 cushion (42 x 37 x 10cm), flow stopper slab, disposal bag, tie, gloves & goggles.
