

Pole Numbers & Letters

Made from durable, UV resistant plastic, our low cost pole numbering system is quick and easy to install. The back plate is supplied in 2 metre strips, is flexible and can be cut to any length. Numbers slide easily into back plate. All numbers and letters available. Characters nominally 25mm high.

Pole Signs

A full range of pole signs is available, manufactured from durable UV resistant plastic. Signs come with fixing holes for nailing to the pole ensuring a quick and easy installation. Please contact Horizon for your requirements.

Pole Bands

Flexible PVC double sided pole band with Yellow 'Danger Live Apparatus' one side and Red 'Caution Do Not Interfere With This Point of Isolation' on the other. Overlapping Velcro fastening ensures snug fit to the pole.

The red Velcro pole band (pictured left) is 1m long x 100mm wide. Used as a maximum climb marker.

Stay Wire Marker Set

Used for the marking of all stay wires. In the case of a previously installed stay wire, marks can be added by simply splitting the plastic markers and pressing them around the wire. The combination of six yellow and six black marks guarantees good visibility. The material is weather and UV resistant plastic.

CAT NO	DESCRIPTION	LENGTH
SH45	Stay Wire Marker Set for 25 - 185mm ² stay wire	210mm
