

Lighthawk

Extremely lightweight (less than 1 kg), this rechargeable LED lantern with deep-dish reflector optimises light output. Design includes 4 pulsing red and white tail lights. Comes with charging rack and AC and DC adapters. The Lighthawk is totally waterproof and it even floats. Sleek, ergonomic design with articulating head which rotates through 90°. Li-Ion battery ensures unwavering brightness throughout charge period. Battery light illuminates to let you know when there is 30 minutes of power remaining.

CAT NO	LIGHT OUTPUT	RUN TIME	WEIGHT
LIGHTHAWK-LED	147 Lumens	7 hours	0.86kg

Eflare

The Eflare warning beacon is ideal for the Emergency Services, industry, utilities and many other applications providing a quick and easy, highly visible warning or safety zone. All Eflare safety beacons are user friendly, easily stored, easily activated, lightweight and durable. They are available in a range of one or two colour light combinations and you can choose between steady on or flashing. With the appropriate accessory the Eflare can be easily attached to clothing, vehicles, cones and bollards. It uses a fast flash rate, high luminosity LEDs and a patented Fresnel lens to provide maximum visibility. Uses 2 x D Cell batteries.

CAT NO	LIGHT OUTPUT	RUN TIME	WEIGHT
EFLARE-LED	30 candela	40 hours	0.45kg

FoxFury Nomad 4000

The system folds into a compact tube with shoulder strap and is light enough to transport anywhere, including rough terrain. It is usable in all weather and is impact resistant. The Nomad uses the latest CREE LED technology and offers a maximum of 4000 lumens output. Fully extended the Nomad reaches 94" (2.39 metres) in height. The head rotates 340° and adjusts up and down. Converts to floodlight by applying lens diffuser (supplied with unit).

CAT NO	LIGHT OUTPUT	DISTANCE	BATTERY	WEIGHT
FFN-4000	<4000 lumens	<2km	Rechargeable Li-Ion 200Wh	7.7kg

Razor Torch

The Razor LED is an intrinsically safe, ATEX Zone 0 accredited hand-held torch. Due to its ATEX accreditation this torch is safe to use in potentially explosive environments. It is impossible for this torch to produce a spark. The deep dish reflector focuses the light from the high output LED. Ergonomically designed push switch that is positioned for easy accessibility. Knurled design allows for a maximum grip - even with wet hands. It is constructed from super tough nylon and is non-conductive. Watertight seal for wet environments. Fully waterproof to one metre. Uses 3 x AA batteries, run time of 80+ hours.

CAT NO	LIGHT OUTPUT	RUN TIME	WEIGHT
RAZOR-LED	40 Lumens	80 hours	0.20kg
