Miller Revolution Accessories

The PivotLink™ Connection provides an attachment point for a multitude of accessories: tools, mobile phones, water bottles and more. Accessories are easily attached and detached, distributing weight across the hips and shoulders for a more comfortable fit and greater mobility. Universal attachment clips fit on your existing accessories or tool rig and are easy to attach/detach.

ExoFit Nex™

Climbing harness with Tech-Lite front, back and side 'D' rings, Duo-Lok™ quick connect buckles and sewn in hip pad and body belt. This harness is manufactured using materials that won't add unnecessary weight. Moisture wicking padding is added to keep the wearer dry and cool all day. Featuring innovative safety devices and ground breaking design features such as integrated suspension relief straps sewn into the harness, Duo-Lok™ quick-connect buckles and a covered pocket with elastic sides to store personal items – allows wearer to work efficiently and safely.

Pro™ Front & Rear 'D' Ring Harness

The Protecta Pro™ Harness is fitted with both front and rear 'D' rings. The front 'D' ring allows the harness to be fitted with a rope and gran system for vertical fall protection when a user is making repeated ascents and descents or similarly when restraint/work positioning is required in either the vertical or horizontal.
