

## XCalibre Fall Arrest Block

The RGAX 10 Series is the ultimate answer in safety when working at low levels due to its unique rapid breaking system (RBS). This block is available with galvanised/stainless steel wire in 10m and 18m lengths, webbing in 3m, 8m and 12m lengths and dyneema rope in 10m and 18m lengths. Packed with unrivalled technology, super light and finished with a sleek, compact and contemporary design. Features alloy swivel with load indicator. Arrest force of 3.2kN - 4.5kN.

## 15m Wire Fall Arrest Block

With its long working length and heavy construction, the RGA3 has been successfully used by the offshore industry for years. The carrying handle of the RGA3 is part of the cast alloy housing and can be connected to the anchorage point using soft slings or a karabiner. The RGA3 is suitable for use in most industries to provide protection in work areas with overhead anchorage points.

CAT NO	CABLE	CONNECTOR	WEIGHT
<b>RGA3</b>	15m x 5mm galvanised steel wire rope	Double action. High tensile steel alloy	10.5kg

## 15m Wire Fall Arrest & Rescue Block

The RGA4 is a three way retrieval block fitted with an up/down winch mechanism and the standard fall arrest capability. Used as a standard fall arrest block, but in the event of a fall, the user can be winched up or down to safety almost immediately. As most rescue systems lower the casualty, the RGA4 can raise the user to safe area, if the area below is unsuitable.

CAT NO	CABLE	CONNECTOR	WEIGHT
<b>RGA4</b>	15m x 5mm galvanized steel wire rope	Double action. High tensile steel alloy	11.35kg

## 33m Wire Fall Arrest Block with Auto Descent

The RGA8 has the benefit of a long cable length (33m). The RGA8 has an extra feature of an automatic descender that will activate in the event of a fall and automatically lower the user to the ground.

CAT NO	CABLE	CONNECTOR	WEIGHT
<b>RGA8</b>	33m x 5mm galvanized steel wire rope	Double action. High tensile steel alloy	17kg

## 33m Wire Arrest & Rescue Block

33m fall arrester manufactured from powder coated die cast aluminium with self-retracting wire lanyard and a bolt on emergency rescue winch. The integrated swivel hook avoids torsion on the wire lanyard. Load indicator shows if a fall has occurred. The RGA9 is a three way retrieval block fitted with an up / down winch mechanism and the standard fall arrest capability.

CAT NO	CABLE	CONNECTOR	WEIGHT
<b>RGA9</b>	33m x 5mm galvanized steel wire rope	Double action. High tensile steel alloy	14.5kg
