

## Earth Nest

**CAT NO: EN-850**

For use with both 11kV and 33kV portable earth sets. The Earth Nest consists of 4 x 850mm copper earth rods connected with 50mm<sup>2</sup> Aluflex and brass rod connector to flat terminal plate.

## HV Earth Down Lead

**CAT NO: HV-EL15-50**

Replacement earth lead for 11kV and 33kV portable earth sets. 15m x 50mm<sup>2</sup> orange Aluflex with terminal lugs. Phase leads also available 3m x 120mm<sup>2</sup> standard, other sizes available on request.

## Earth Rod Driver

**CAT NO: ER-DT**

Manufactured using high-grade hardened steel. Attaches to standard breaker and fits over the earth rod to drive it easily to ground level. Please advise size of breaker collet when ordering.

## Screw Type Earth Rod

**CAT NO: 4370**

For one man use, the Hastings screw type earth rod has a 12" long (30cm) helix to enable easy installation in most ground conditions. 5/8" diameter copper weld rod. 12" (30cm) bronze handle. 72" (183cm) overall length.

## Running Earth

**CAT NO: 9738**

Adjustable stringing earth accepts conductors from 5mm - 27mm diameter. Self lubricating rollers, aluminium alloy. Tested to 19kA.
