

PADS No: 0111-110836

Our lightweight Wireless Inspection HD Camera Kit is completely weatherproof and is supplied with adapters to fit either slot together operating rods or hot sticks with universal fitting such as the Hastings Telescopic Rod allowing remote inspection up to 12 metres.

The camera can be operated via a smart phone or tablet which then displays the images on screen and allows the operator to switch between video or still shots. This offers greater functionality and control ensuring that the highest quality imagery is obtained. The kit also includes a multi-function POV LED light for use at night or in poor visibility.

Possible applications include:

- Inspection of insulators and crossarms
- Overhead line joint inspection
- Transformer identification
- Switch inspection
- General pole top inspection
- Inspection of structures such as bridges, gantries, building roofs and gutters
- Observation tool for working at height training
- Dash cam
